

NEWS RELEASE

Orea Provides Update on the Renewal Status of the Montagne d'Or Gold Deposit Concessions

Vancouver, BC, Canada, September 27, 2021, Orea Mining Corp. (“Orea”) (OREA: TSX) (OREAF: OTCQX) (3CG: FSE) is pleased to provide an update on the renewal of the Montagne d’Or Gold Deposit (“Montagne d’Or”) concessions (the “Mining Titles”), located in French Guiana, France, owned 44.99% by Orea and 55.01% by Nord Gold plc (the “JV”).

As announced on July 22, 2021, the Court of Appeal of Bordeaux rejected the French Government’s appeal and its request for a stay of execution of the initial court rulings of December 24, 2020, which were in favour of the JV, ordering the renewal of the Mining Titles. In its ruling, the Court of Appeal concluded that the arguments put forth by the French Government were without merit and that the JV submitted complete applications and met all requirements for the renewal of the Mining Titles.

The French Government had until September 17, 2021, to file a second and final appeal to the French Supreme Court (*Conseil d’Etat*). As of today, September 27, 2021, the JV has not received or located any official communication that a second and final appeal has been lodged.

The JV expects to know in reasonable due-course if an appeal has been lodged. If an appeal has been lodged, the Supreme Court will conduct an analysis on whether to admit or reject to hear the appeal. To be admissible, the appeal must be based on reasoned arguments and serious grounds. No deadline is provided for such an analysis and the appeal will be communicated to the JV only if it is admitted for hearing. If the appeal is considered admissible, the Supreme Court will only assess whether the initial court rulings were sufficiently substantiated and if the procedural rules have been duly followed without error; therefore, it would not be possible for the French Government to present new or additional arguments. In principle, an appeal before the Supreme Court has no suspensive effect, therefore the initial court rulings should be upheld and implemented, except if the Supreme Court expressly decides otherwise pending its final ruling on an appeal.

In addition, on June 25, 2021, the JV filed additional claims before the French courts to enforce the court decisions of December 24, 2020, and have the French Government be subject to a daily penalty, which is payable to the JV, until the Mining Titles have been formally renewed.

Montagne d’Or, located in French Guiana, France, is a permitting-stage open pit gold deposit that hosts Proven Mineral Reserves of 8.25 Mt at 1.99 g/t gold (530,000 oz) and Probable Mineral Reserves of 45.87 Mt at 1.50 g/t gold (2.2 Moz). The mineralized zones remain open on strike to the west and at depth. Utilizing a gold price of \$1,300, the deposit hosts Measured Mineral Resources of 10.3 Mt at 1.804 g/t gold (600,000 oz), plus Indicated Mineral Resources of 74.8 Mt at 1.350 g/t gold (3.25 Moz) and additional Inferred Mineral Resources of 20.2 Mt at 1.48 g/t gold (960,000 oz).*

If the Mining Titles are renewed, Montagne d'Or will be subject to various regulatory requirements prior to proceeding with the construction and operation of a mine, which include but are not limited to, the grant of mining and environmental authorizations and construction permits by the State.

Additional updates will be provided by Orea in due-course.

***About Montagne d'Or**

Montagne d'Or is a permitting-stage open pit gold deposit that hosts Measured Mineral Resources of 10.3 Mt at 1.804 g/t gold (600,000 oz), Indicated Mineral Resources of 74.8 Mt at 1.350 g/t gold (3.25 Moz) and additional Inferred Mineral Resources of 20.2 Mt at 1.48 g/t gold (960,000 oz), prepared in accordance with the requirements of National Instrument 43-101 - Standards of Disclosure for Mineral Projects ("NI 43-101"). The Mineral Resources are confined within a pit shell defined by a gold price of US\$1,300/oz and a cut-off grade of 0.4 g/t gold. Mineral Reserves have also been defined with Proven Mineral Reserves of 8.25 Mt at 1.99 g/t gold (530,000 oz) and Probable Mineral Reserves of 45.87 Mt at 1.50 g/t gold (2.2 Moz). The Proven and Probable Mineral Reserves were estimated using a gold price of US\$1,200 per ounce at varied cut-off grades from 0.552 to 0.665 g/t gold, dependent on lithological rock types, economics and estimated metallurgical recovery. Montagne d'Or ore can be readily processed to recover the contained gold and silver values using unit operations considered standard to the industry. For more information, see Orea's news release titled "Columbus Gold Announces Positive Bankable Feasibility Study for Montagne d'Or Gold Project, French Guiana" dated March 20, 2017 and filed on SEDAR and the technical report prepared in accordance with the requirements of NI 43-101 titled "NI 43-101 Technical Report, Bankable Feasibility Study - Montagne d'Or Project, French Guiana" by SRK Consulting for Columbus Gold (now Orea Mining) and Nordgold with an Effective Date of March 6, 2017, and a report date of April 28, 2017, which was filed on SEDAR on April 28, 2017.

Qualified Person

Rock Lefrançois, President & Chief Executive Officer of Orea and Qualified Person under National Instrument 43-101, has reviewed this news release and is responsible for the technical information reported herein, including verification of the data disclosed.

About Orea Mining Corp.

Orea is a leading gold exploration and development company operating in a prospective and underexplored segment of the Guiana Shield, South America. Its mission is to develop gold deposits with a reduced environmental footprint using innovative technologies, upholding the highest international standards for responsible mining. In French Guiana, Orea holds a major interest in the world-class Montagne d'Or mine development project and is also advancing the Maripa gold exploration project.

Forward-looking statements

Certain statements made herein, including statements relating to matters that are not historical facts and statements of the Company's beliefs, intentions and expectations about developments, results and events which will or may occur in the future, constitute "forward looking information" within the meaning of applicable Canadian securities legislation ("forward-looking statements"). Forward-looking statements relate to future events or future performance, reflect current expectations or beliefs regarding future events and are typically identified by words such as "anticipate", "could", "should", "expect", "seek", "may", "intend", "likely", "budget", "plan", "estimate", "continue", "forecast", "believe", "predict", "potential", "target", "would", "might", "will", and similar words, expressions or phrases (including negative variations) suggesting future outcomes or statements regarding an outlook. These include, but are not limited to, statements and information regarding: the Company's plans to construct and develop the Montagne d'Or project, including anticipated timing thereof; the timing, processes, outcome and other matters related to the renewal of the Montagne d'Or concessions, including the appeal from the French Government; the satisfaction of regulatory requirements in respect of the permitting, construction and operation of the Montagne d'Or project, including but not limited to, the submission and processing of mine permit applications, the timing thereof and the timing of completion of environmental and engineering studies; the Company's ability to renew the concessions for the Montagne d'Or project and to comply with the conditions thereof; economic analysis for the Montagne d'Or project and related exploration objectives and plans; the conversion of mineral resources into mineral reserves and the conversion of inferred mineral resources into higher resource classification categories; the Company's objective of become an emerging gold producer; the acquisition of exploration projects including terms of acquisition, exploration or development plans, intentions to acquire additional exploration or development interests and the implications thereof; the production capacity and potential of future plant and equipment; future exploration and mine plans, objectives and expectations and corporate planning of the Company, future studies and environmental impact statements and the timetable for completion and content thereof and statements as to management's expectations with respect to, among other things, the matters and activities contemplated in this news release.

Forward-looking statements are made based upon certain assumptions and other important factors that, if untrue, could cause the actual results, performance or achievements of the Company to be materially different from future results, performance or achievements expressed or implied by such statements. Such assumptions and analyses are made by the Company's management in light of their experience and perception of historical trends, current conditions and expected future developments, as well as other factors management believes are reasonable and appropriate in the circumstances. All assumptions and analyses are those of the Company's. There can be no assurance that such statements will prove to be accurate. Forward-looking statements are based on numerous assumptions regarding present and future business strategies, local and global economic conditions, and the environment in which the Company will operate in the future, including compliance by the Company with regulatory and permitting requirements applicable in French Guiana, the sufficiency of Company's working capital; the Company's ability to secure additional funding for the continued exploration and development of its properties; the price of gold and other metals; and the Company's ability to retain key personnel. You are hence cautioned not to place undue reliance on forward-looking statements.

Certain important factors that could cause actual results, performance or achievements to differ materially from those in the forward-looking statements include, among others, political and economic risks in France, political and economic risks in French Guiana, risks related to the renewal applications for the Concessions and the possible outcomes thereof; possible negative outcomes of any appeals from the decision of the Administrative Court of Cayenne in French Guiana; regulatory risk including but not limited to unforeseen changes in regulatory requirements, the Company's ability to enforce its contractual and other legal rights to explore and exploit its properties, risks related to exploration and development, permitting and licensing risk, the estimation of mineral resources and mineral reserves and related interpretations and assumptions, future profitability of the Company, the ability to obtain additional financing on a timely basis, the price of gold and marketability thereof, government regulations including with respect to taxes, royalties, land tenure and land use, title to the Company's properties, currency exchange rates and fluctuations, environmental risks, dilution resulting from the issuance of additional securities of the Company, joint venture risks, reliance on Nord Gold SE as operator of the Montagne d'Or project, the availability of equipment, conflicts of interest, competition in the mining industry, uninsured risks, market fluctuations, global financial conditions, credit risk and risks arising from pandemics and epidemics such as the COVID-19 pandemic. Although the Company has attempted to identify important factors that could cause actual actions, events or results to differ materially from those described in forward-looking statements, there may be other factors that cause actions, events or results not to be as anticipated, estimated or intended. These statements, however, are subject to a variety of risks and uncertainties and other factors that could cause actual events or results to differ materially from those projected in the forward-looking statements.

Readers are cautioned not to place undue reliance on forward-looking statements. By their nature, forward-looking statements involve numerous assumptions, inherent risks and uncertainties, both general and specific, which contribute to the possibility that the predicted outcomes will not occur. Events or circumstances could cause the Company's actual results to differ materially from those estimated or projected and expressed in, or implied by, these forward-looking statements. Important factors that could cause actual results to differ from these forward-looking statements are included in the "Risk Factors" section in Company's annual information form dated December 11, 2020 for the year ended September 30, 2020 ("AIF").

Readers are further cautioned that the list of factors enumerated in the "Risk Factors" section of the AIF that may affect future results is not exhaustive. When relying on the Company's forward-looking statements and information to make decisions with respect to the Company, investors and others should carefully consider the foregoing factors and other uncertainties and potential events. Furthermore, the forward-looking statements and information contained herein are made as of the date of this document and the Company does not undertake any obligation to update or to revise any of the included forward-looking statements or information, whether as a result of new information, future events or otherwise, except as required by applicable law. The forward-looking statements and information contained herein are expressly qualified by this cautionary statement.
